

Fishing in the Pacific Northwest

Grade Level: K - 5

Duration: 50-minute session

Number of classes per visit: 4-6

Available: October - June

How do you fish? Whether it's recreational with rod and reel, occupational with commercial fleets, or utilitarian with traditional methods, there is an immense and diverse history of fishing in the Pacific Northwest. This program introduces three of these methods of salmon fishing to the classroom. Students will discover each method's strengths and purposes while trying their hand at our stationed activities.
